**Attachments:** ATT00001.txt

Good Morning Nancy,

We are currently installing the equipment to conduct the Tracer Test at the Florence Copper Production Test Facility as summarized in the 23 March 2018 Notification of Formation Testing document. If installation goes smoothly we expect to inject dye beginning Monday 6/11/2018 and expect the tracer test to take approximately 10-14 days to be completed. We have notified Dave Haag at ADEQ to inquire if he will be available to come out for the test.

Best Regards,

**Dan Johnson** VP | General Manager
